Charges on hostels chattrams &c
in mySore :

The President Municipal
Council mySore has stated
that some of the charitable
institutions and hostels are
recovering rents from the
occupants or boarders &
that such institutions
should be charged for
water consumed.

In Bangalore all
religious & charitable
institutions including
mutts, masjids grave
yards, burial grounds
temples chattrams are
given free Supply of water.
As regards hostels, the
original G O no 4826/MR 332-13-3
d 10-7-1914 provided for
a free allowance of 12½
gallons per day for each
Student & the total free
allowance granted was
according to the average
Strength of the Students
during each month or
quarter.

all water over five
thos. was being charged at-
12as per 1000 gallons
Against this G.O. was
modified in G.O. no 6575-7/
36-20-9 d. 10.8.1922 which
provided to free allowance to
these institutions according
to the rental value of the
building for the same system
is still in force in Bangalore.
Naturally all religious
& charitable institutions
should be eligible for
free supply of water, but it
should be definitely decided
as to which of the institutions
have to be classed as such.
There institutions which the
municipality have exempted
from all taxes for which do
not fetch any rent in
any manner whatsoever
should be entitled for
free supply of water. All
other institutions which
fetch rent should be
made to pay for water
The free allowance
to such institutions including
chatrams & musafirkanas
which recover rent from
the occupants can be
given on the rental value
of the building

200
of the rental
year and a-
water meter be
at the usual &
prevailing in my

31) Returned with compliments.

Most of the institutions included in the list sent by the President are charitable institutions from which the managements (Government or Aided agencies) make no profit and on which the Managements have always to spend something for maintenance etc. It does not appear to be reasonable to levy water tax on such institutions, particularly since no rent is collected from the occupants.

But it appears to be necessary to prevent wastage a free allowance may be fixed, generously calculated at so many gallons per boarder per mensem by Govemment, and excess consumption at the end of the year may be charged for at the usual rates. Necessary information will be collected and forwarded early.

37 CG
26/4

38) The proposal of the Municipal Council is to recover water charges in respect of all charitable institutions, such as chattrams, mâlis, Musafirkhanas, Hostels, for whose occupation rent is charged. (G O No d 41-47 Dy 2 / 25 exempts such institutions from payment of Water Charges) The chief reasons for making this proposal are (1) that as some of the so called charitable institutions are levying rent for their occupation, it is not reasonable to exempt them & (2) that as the present income of the Municipality by way of water charges is less than the Water Supply Maintenance charges they have to pay to Govt, the income is to be derived

in Mysore & Bangalore Cities

Serial No

by taxing the institutions referred to will impro... the finances of the Municipality

39) The Chief Engineer has no objection to the proposal as also the Municipal Commr Bangalore. The Mysore Commr thinks that there should be no general rule of this kind, as in the case of some charitable institutions the rent realised is negligible & is not sufficient even to meet the maintenance charges & that there would be no objection to levy the charges only in cases where a large margin of surplus is realised by the levy of rents. He accordingly suggests that specific cases in which water charges may justifiably be levied be brought to notice & got by the Mcy & cases passed thereon in consultation with the Mysore Dept. The Director of Public Instruction is not also in favour of taxing these institutions as the management make no profit thereform, but suggests that, to prevent wastage, the excess consumption over a limit to be prescribed be charged at the end of the year

40) As the control of Water Supply arrangements in Mysore city is now vested in the Bureau of Sanitary Engineering the Director of Health may also be consulted in the matter (unofficially)

Forwarded with compliments unofficially to the Director of Health in Mysore for favour of remarks

By order

Asstt to Chief Secy to Govt

c/12297-2 a/c to file
25 5 33

Retransmitted with compliments to the Chief Secretary. I am of opinion that wholly religious and charitable institutions such as Temples, Mosques, Churches, Mutts, Grave Yards, Chatrams &c , which derive no income or only nominal income from rent may be given free supply of water

In the case of Institutions which derive a substantial income from rents, free supply may be given on the rental value, excess consumption being charged at Re 1/- per 1,000 gallons This would necessitate metering

In the case of ~~Hotels~~ Hostels free supply to the extent of 12½ gallons per head, population being calculated on the average of last 3 years, may be given and excess charged at the rate of Re 1/- per 1,000 gallons This also would necessitate metering

The cost of water supply in Mysore is growing and unless the income is adequate, maintenance and improvements will be a burden on the general Revenues and, it may be, the Municipality will not be in a position to take up the improvements from time to time Further, unless some restrictions are placed on free supply, it will not be possible to minimise the wastage

496. Managing Committee's recommendations in regard to (1) water supply to religious and Educational Institutions, Chatrams, Charitable Institutions and residential portions attached to buildings exempt from flat-rate (2) arrears outstanding against some of the charitable institutions and (3) Levy of flat-rate on buildings which remain disconnected due to default in payment of water charges.

Resolution - The Managing Committee's recommendations are approved with slight modification regarding water supply to charitabl institutions such as orphanages, poor houses etc., The modified resolutions stand as follows:-

1. Water supply to educational institutions (a) Government

i.- All educational institutions such as hostels, ing homes for students, etc., whether Government or private, shall be charged at a concession rate of eight annas per 1,000 gallons.

ii. Water supply to choultries (a) rent free (b) institutions which levy rent for occupation:- In view of the fact that full exemption from payment of water charges was granted in respect of chatrams and choultries on the ground that the loss of revenue thereby would be very small (Vide Government Order No.L.41-47/M1 101-24-14 dated 2-7-1925) and having regard to the fact that the number of these institutions is increasing and the maintenance charges are increasing heavily, Government be requested to revise the earlier orders with a view to limit in the case of all these institutions, free supply to a limited extent calculated according to the bona fide requirements of such institutions, and authorise levy of a concession rate of eight annas per 1,000 gallons on the consumption of water in excess of such free supply.

iii. Water supply to religious institutions such as temples, mosques, churches, Mutts, makkans and to residential portions attached to buildings which are exempt from payment of water charges:- All religious institutions such as temples, mosques, churches, mutts will be entitled to free supply but this concession will not be enjoyed by portion or portions of these institutions which are let out as shops, residences or for other purposes to tenants. This concession will not be extended to institutions of of the character of Nama Mandirams or religious lecture halls etc., where there is no consecration for religious worship, and where the need for free supply is not clearly proved. When granting such exemptions, it should be made clear that only such institutions as are dedicated to public worship, the management of which is entrusted to a Trust or Committee, private ownership being relinquished, will be entitled to claim exemption.

iv. Water supply to charitable institutions such as orphanages, poor houses etc.,:-

(a) A classification of educational and charitable institutions be made.

(b) In cases where the entire building is used as an orphanage, poor house etc., or where the building is set apart for the convenience of students from whom no rent is levied, free supply of water be given to the extent of 10 gallons per head, the excess consumption being charged for at a concession rate of eight annas per 1,000 gallons, the approval of the Municipal Council being obtained to the title of such institutions for free supply.

v. Payment of arrears outstanding against certain institutions:- (a) In the case of charitable institutions, the write off of arrears may be sanctioned. (b) In the case of educational institutions, if the Municipal Council have resolved in the past to grant exemption, the arrears may be written off (c) The principles determined supra may be brought into operation from 1933-34.

vi. Levy of flat rate on buildings which remain disconnected due to default in payment of water charges:- As regards levy of flat rate in the case of house connections, where disconnection takes place for default and no reconnection is applied for in subsequent whole years, flat rate shall be recovered only for the half year in which the disconnection takes place, no demand being shown for the subsequent half year or years, in which there is no supply.

In the case of houses entitled to vacancy remissions, no remission will be allowed to respect of flat rate, which is a rate leviable for the whole year, irrespective of the period during which the supply is actually taken.

President.

VR.

Mc 176-31-1

No. W R 827/31-32 Enclosure
Enc. of 2.2.1932.

Office of the President,
City Municipal Council, Mysore.
Dated 1st February 1932.

From

P.G.Rama Iyer, Esq., B.A.,

President, City Municipal Council,

Mysore.

L3156

The Secretary to Government,

General Department,

Bangalore.

Sir,

I have the honour to state that Chattrams, Mutts, Musafer-Khanas, hostels and other religious Institutions in the City are exempted from payment of water charges as per Government Orders No.L 41-47/Ml 101-24-14 dated 2nd July 1925 and order No.L.4198-201/Ml 72-25-5 dated 10th December 1925 from 1st July 1925. The present income from water supply and the expenditure borne by the Municipal Council towards water supply maintenance charges are detailed below:-

Income.

	Rs.
General water rate. ...	33,000
Flatrate, on domestic items.	30,000
Water charges on non-domestic items. ...	23,000
Total Income	86,000

Expenditure.

2/3rd quota of operation and maintenance charges of Vani Vilas Water Works	90,000
Establishment charges to be paid to lent hands of Public Works Department.	2,280
Annual road watering charges.	1,000
Contingency & other charges.	220
Total expenditure.	93,500

It will be seen from the above that the quota of expenditure payable by the Municipality is more than the amount of income realised at present. There are many buildings passing as

charitable Institutions which levy rent from occupants for their occupation. There is not sufficient reason why the institutions which earn rent should not pay for water.

Taking this aspect of question into consideration with a view to cover at least the excess amount of expenditure which they have to pay, the Municipal Council in the Resolution No.203 dated 19th December 1931 (copy enclosed) have approved of the recovery of water charges in respect of all buildings for whose occupation rent is charged.

I request sanction of Government to the Council's Resolution referred to above.

I have the honour to be,

Sir,

Your most obedient servant,

President.

PVR.

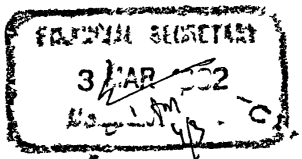
No. H.R. 984/31-32 Enc. one Statement dt 1/3/32.

Office of the President,
City Municipal Council, Mysore.
Dated 1st March 1932.

From

L.G.Rama Iyer, Esq., B.A.,
President, City Municipal Council,
Mysore.



To

The Secretary to Government,
Financial Department,
Bangalore.

L 3502

Sir,

With reference to your letter No.L 5895/Ml 176-31-2 dated 19th February 1932 asking a list of the buildings (for whose occupation rent is charged) in respect of which water charges are proposed to be recovered, I have the honour to forward herewith a list of all such buildings. Water charges are levied at the rate of one rupee per 1000 gallons of water consumed, and it is not possible at present to estimate the additional income from each institution as the quantity of water that may be consumed is not ascertainable now There is no provision in the water-supply rules for such free supplies. The total additional income may be estimated roughly at about Rs.5000/- per annum. In the interests of Municipal finance it is necessary to [redacted] water-supply in the City in this respect more or less on the same lines as supply of electric power by the Electric Department. There is also no check against wastage or misuse of water at present in these chattrams and the proposed levy would automatically enforce economy in consumption of water It is also essential to increase the income from water-supply for financing the schemes of extension of water supply in the City The favour of early sanction is requested.

I have the honour to be,

Sir,

Your most obedient servant,

President.

PVR.

To

HIS HIGHNESS COLONEL SRI KRISHNARAJENDRA WADIYAR BAHADDUR
G. C. S. I,
MAHARAJA OF MYSORE,
MYSORE.

May it please Your Highness,

We the undersigned most respectfully beg leave to place your Highness the following few lines and pray for your Highness's most generous and sympathetic consideration.

Our elders and ourselves have constructed in this growing city charitable buildings solely for the use and convenience of local and moffusil people These buildings, it is needless to say, have been of very great service to the public during marriage seasons and festive occasions such as the Dasara and the Birth-Day. We have not been getting anything in return from the people who will have resort to these buildings for their needs. In addition to much money expended on these buildings during construction, we have been spending large sums for their up-keep and maintainance by way of annual repairs for the same.

When water connection was taken for these charitable buildings water tax was at first collected. Subsequently, the Municipal Council having realised the injustice of taxing such charitable institutions were pleased to exempt such buildings from payment of the water tax, and consequently the water metres were at once removed. This arrangement gave great relief to the managers of these charitable institutions and they therefore offered their heartfelt thanks to the Municipality. Now the Municipality has been refixing water metres in these charitable buildings and we do not know why this is being done. We most respectfully pray that Your Highness be graciously pleased to direct that the

water metres are not fixed in these institutions, and that the exemption from payment of water taxes which was so generously conferred on these institutions may not be removed.

We fervently pray that our most respectful and earnest prayers be given your Highness's sympathetic consideration and favourable orders be passed thereon.

We beg to remain,

Your Highness's most obedient and loyal subjects,

Mysore:
20th April 1932.

PROCEEDINGS OF THE MANAGING COMMITTEE MEETING HELD ON 8th August 1932.

Subject No.3. To consider Council Subject No 24 dated 14th May 1932 referring letter No. L 6973-4/Ml.176-31-4 dated 14-4-1932 from the General Secretary to Government, asking the opinion of the Bangalore City Municipal Council, in the matter of recovering water charges in respect of all chatrams, mutts, musafarkhanas, hostels, and religious institutions which are exempted from payment of water charges, but which are earning rents, as proposed by the Mysore City Municipal Council

RESOLUTION -

The Committee is of opinion that institutions referred to in the letter of the General Secretary to Government, cannot be exempted from payment of water charges, if they are earning rents The Bangalore City Municipal Council has been enforcing this rule and not exempted any of such institutions from payment of water charges.

SIR,

for S.S.
1.

With reference to your letter No.L.6973-4/M1 176-31-4 dated 12/14th April 1932 re the recovery of water charges in respect of Chattrams etc , which are exempted from payment but for whose occupation rent is charged I have the honor to state as follows -

P G.O.No.L 41-47/M1 101-24-14 dated 2nd July 1925 passing orders in the matter of the free supply of water to public charitable and Religious Institutions in the Bangalore and Mysore Cities was issued after a full investigation of the possible loss to the Municipalities of Bangalore and Mysore cities It was considered that the loss to them would be very small. In the case of some chattrams, the amount realized in the shape of rent may not even be sufficient to meet the maintenance charges - not to speak of water charges and in such cases, the levy of water charges would certainly work as a hardship. It is only in cases where a large margin of surplus is realised by levy of the rent that there would be justification for levying water charges

I am therefore not agreeable to the levy as a general rule. If and when the Municipality concerned specifically mentions the institution which could justifiably be charged, such cases may be considered individually by Government in consultation with the Muzrai Commissioner.

I have the honor to be,
Sir,
Your most obedient servant,

Hiriannaiya
Muzrai Commissioner

B T KESAVA IYENGAR, Esq, B A,
PRESIDENT, CITY MUNICIPAL COUNCIL,
MYSORE

GEN & REV. SECTN
3 AUG 1933
L.S.G.P.

159,,

To

The Chief Secretary to the Government
of His Highness the Maharaja of Mysore,
Bangalore.

SIR,

In forwarding herewith, a copy of the Municipal Council's resolution No.496 dated 24-6-1933, in the matter of water supply to public, charitable and religious Institutions in Mysore City, I have the honour to state that Government in their Order No.L 41-47/M1. 101-24-14 dated 2nd July 1925 were pleased to grant full exemption from payment of water charges in respect of 29 such institutions on the ground that the loss of revenue resulting therefrom would be only Rs.981 per annum.

But in view of (1) the considerable increase in the number of these institutions, (2) the large quantity of water that is being consumed by each of them (3) the growing demand for the improvement of water supply and the increase in the water supply and maintenance charges, from year to year, and (4) the insufficiency of the present water revenue to meet even ¾ of the Municipal quota of expenditure in this behalf, the Council have considered it very necessary to levy charges for the water supplied to these institutions, with a view to minimize the heavy loss in revenue, with due reference to the nature of the institutions as classified below. After a careful consideration of all the aspects of the question, tney have finally arrived at the following decisions:-

(1) Educational Institutions

(a) Government. (b) Private.

These are growing in number. According to the monthly readings received, the average consumption of water per month by only 3 of these Institutions, viz., (1) the Institute for defectives, (2) the central Adikarnataka Hostel, Nazarbad and (3) the Ursu Boarding School, is, 1,81,000/-, 1,20,000/- and ~~19,8000~~ 1,08,000 gallons each respectively. The approximate loss of revenue from these 3 institutions, alone can be estimated at over Rs.3,000/- per annum.

The Council have therefore decided to levy water charges at a concession rate of annas eight per 1000 gallons in respect of all Educational Institutions, such as hostels, boarding homes for students, etc., whether Government, or private.

(2) Choultries

(a) rent free

&

(b) Institutions which levy rent for occupation.

There are a number of these Institutions. So far a few of them have metered connections. The loss in revenue owing to the grant of full exemption to these institutions, is also very heavy, as can be seen by the statement of monthly average readings relating to a few of them as reproduced below:-

1)	Nanjaraja Bahadur Choultry	71581 gallons.
2)	Bommiah's chourtly.	49175 "
3)	Amble Annaiah Pandit's Choultry	34488 "
4)	Suryanarayanachetty's Choultry	33450 "

But in view of the charitable nature of these, and the fact that they have been enjoying the concession of free supply from a long time past, the Council have proposed to grant free supply to these institutions to a limited extent, calculated according to their bonafide requirements and to levy a concession rate of 0-8-0 per 1000 gallons on the consumption of water in excess of the free allowance.

3) Religious Institutions such as Temples, Mosques, Churches and Mutts.

The Council do not wish to interfere with the concession of free supply that is being enjoyed by these and have accordingly

PT 6

decided that such institutions may continue to have free supply as heretofore subject to the condition that this concession shall not be extended to portion or portions of them which are let out as shops, residences or for other purposes to tenants, and to institutions of the character of Ramamandirs and Religious lecture halls (which are large in number) where there is no consecration for religious worship.

(4) Charitable Institutions such as orphanages, poor houses etc.,

As resolved by the council, in cases where the entire building is used as an orphange, poor house etc., or where the building is set apart for the convenience of students from whom no rent is recovered, free supply of water will be given to the extent of 10 gallons per head, the excess over this being charged for at a concession rate of 0-8-0 per thousand gallons, the approval of the Council being obtained to the title of such institutions for free supply. The adoption of the proposals of the Council, as above will not only tend to minimize the loss in revenue, but will also automatically enforce economy in the use of filtered water.

5) Arrears outstanding against certain Institutions

The write off of arrears outstanding against charitable Institutions has been sanctioned by the Council. As regards Educational Institutions, they have said that the arrears may be written off, if there is a resolution of the Council in the past, to grant such exemption.

A detailed list of arrears outstanding against all such Institutions up to end of June 1933 will be submitted to Government, separately, after placing the same before the Council.

In these circumstances, I request that sanction of Government, may be kindly obtained to give effect to the Council's proposals from 1st July 1933.

I have the honour to be,
Sir,
Your most obedient servant,

President.

FVR.

Proceedings of the 21st (Ordinary) meeting of the Mysore City Municipal Council held in the Council Chambers on Saturday the 24th June 1933 at 4 P.M.

Present.

B.T.Kesava Iyengar, Esq., B.A ,President.

496. Managing Committee's recommendations in regard to (1) water supply to religious and Educational Institutions, Chatrams, Charitable Institutions and residential portions attached to buildings exempt from flat-rate (2) arrears outstanding against some of the charitable institutions and (3) Levy of flat-rate on buildings which remain disconnected due to default in payment of water charges.

Resolution- The Managing Committee's recommendations are approved with slight modification regarding water supply to charitable institutions such as orphanages, poor houses etc., The modified resolutions stand as follows:-

1. Water supply to educational institutions (a) Government (b) Private:- All educational institutions such as hostels, boarding homes for students, etc., whether Government or private shall be charged
